

# AHMT 350T HORIZONTAL FORM, FILL AND SEAL MACHINE

PACKAGING AIDS  
HORIZONTAL  
FLOW WRAPPER

The AHMT 350T horizontal form, fill and seal machine (flow wrapper) is the ideal choice for suppliers of products that must be packaged individually. These products include candies and confections, bakery, electronics, hardware, and medical products.

This entry-level machine is a high performance packaging system in a small economical footprint. The 350T is a perfect choice for new applications or increasing your existing capacity.

This versatile machine can operate at speeds up to 60 packages per minute. The crisp looking packages can be up to 9 3/4" long, 2 1/4" high, and 4 1/2" long. The standard finish is painted or chose the optional bright stainless steel finish. In addition, there are many options and complimentary pieces of equipment to customize this machine to your needs.

HORIZONTAL FORM, FILL AND SEAL MACHINES FOR EVERY INDUSTRY

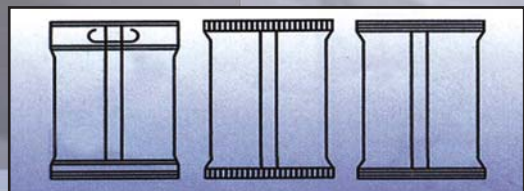

# AHMT 350T TABLE TOP HFFS MACHINE

This horizontal form, fill, and seal machine (flow wrapper) is ideal for packaging individual products. Your product can be fed either manually or automatically to the machine. The attached product feeder indexes items forward and encloses them into a formed tube of film. This web of material is then sealed using a "fin seal." The enfolded product is then further index to be end sealed and cut off in a continuous process. The result is a neatly wrapped finished product.

The settings of the machine are easily changed to suit various package sizes and lengths. The 350T is fitted with constant-heat sealing bars which make it suitable for sealing polypropylene, co-extruded, laminated, lacquered and various complex films.

## Sealing Options

## Technical Information AHMT 350T

Bag length (min-max)	3 1/4" to 9 3/4"
Film reel width (min-max)	3 1/4" to 13 3/4"
Film reel outside diameter (max)	12 1/2"
Film reel inside diameter	3"
Maximum product height	2 1/4"
Maximum product width	4 1/4"
Machine speed*	60 bags per minute
Machine dimensions (LxWxH)	53 1/4" x 31 1/2" x 35 1/2"
Weight	530 lbs
Electrical	220 v / 1ph / 50-60 Hz
*Subject to product, dosage and packaging material

## 350T TABLETOP TECHNICAL SPECIFICATIONS

### Advantages & Benefits

- Adjustable bag former and simple bag length adjustment assure lower cost of change overs and flexibility in package size
- Digital temperature controllers for fin and end seals allow for maximum throughput
- Easy to use controls, operator safety considerations and product features like end of roll detection help assure maximum system up time for greater productivity
- A variety of available options ensure the ability to tailor the 350T to the specific application

### Options

- Gusset former
- Date Coder
- Stainless Steel machine frame
- Printing device
- Photocell for pre-printed film
- Gas flush

### Complementary Equipment Includes

- Counting Systems
- Conveyor Belt Feeder Systems
- Take Away Conveyor Belts
