

# Audion Sealmaster Magneta Impulse Sealer

## Impulse Heat Bar Sealer

The Audion Sealmaster Magneta is a reliable impulse bag sealer that provides high quality seals time after time. The Magneta impulse sealer is ideal for medium-duty applications where you need to seal up to a few thousand poly bags per day.

The Magneta impulse bag sealer is equipped with a magnetic hold down device that ensures consistent seals independently of the operator. This impulse sealer can be operated by hand or with an optional foot pedal. There is also an optional motorized version (MGM) that automatically closes the seal bars with the gentle push on the pedal.

The Magneta impulse sealer works with polyethylene, polypropylene, and other film laminates. This poly bag impulse sealer can work with pre-made bags as well as poly tubing. When working with tubing, the machine can produce various length bags by using the integrated cutter. The Magneta impulse sealer is extremely easy to maintain, as the seal bar can be replaced in less than a minute.

The Audion Sealmaster Magneta is made in Europe, includes an industry-leading three year warranty, and can last well over a decade with proper care.

### Features and specifications

- Seal Length: 12.5", 16.5", 24.5", 32", 40"
- Seal Width: 1/8"
- Independent seal and cool timers
- Long-life cutting blade
- Maximum film thickness (PE): 2 x 8 mil
- Electrical requirement: 115V
- 3 year limited warranty

### Magneta Options

- Code Seal - text is embossed in the seal
- Stand with mechanical foot pedal (SP)
- Workshelf with bag support (OTST)
- Rolloflux tabletop roll holder for poly tubing (RL)
- Set of rollers for stand to hold poly tubing (SR)
- Electric foot pedal (MGM version)

*Optional Code Seal for a permanent, tamper-proof imprint that is physically embedded into the bag seal*

*Rolloflux tabletop roll holder option (RL) can be mounted on the back of the Magneta for use with poly tubing*

### Sealmaster Magneta Models

<b>Sealmaster Magneta 321</b> – 12.5" seal length	321 MG – standard
<b>Sealmaster Magneta 421</b> – 16.5" seal length	421 MG – standard 421 MGM – motorized operation
<b>Sealmaster Magneta 621</b> – 24.5" seal length	621 MG – standard 621 MGM – motorized operation
<b>Sealmaster Magneta 821</b> – 32" seal length	821 MGI -standard 821 MGM -motorized operation
<b>Sealmaster Magneta 1021</b> – 40" seal length	1021 MGI -standard 1021 MGM -motorized operation
